# About us

Athenian Tech, a Digital Risk Management company, provides artificial intelligence (AI) and machine learning (ML)-powered technology solutions against advanced digital and cyber threats. Its eminent clients include companies such as AWS, BAE Systems, Microsoft, Meta, and UNODC.

Athenian Tech leverages solutions powered by AI and ML to protect Digital Identity for businesses. Athenian Tech offers 360-degree protection against advanced digital and cyber threats.

Athenian Tech focuses on protecting businesses and business leaders from identity, social engineering, APTs, Ransomware, and Crypto-Jacking attacks, as well as emerging threat vectors from the Dark, Deep, and Surface Web.

## Prime – Risk Intelligence as a Service

Prime is a SaaS-based Risk Intelligence Platform offering deep insights into the cyber threat landscape. Leveraging the potential of AI and ML, Prime enables pre-emptive threat detection, continuous monitoring, and real-time intelligence feeds, enhancing cybersecurity preparedness and cyber resilience.

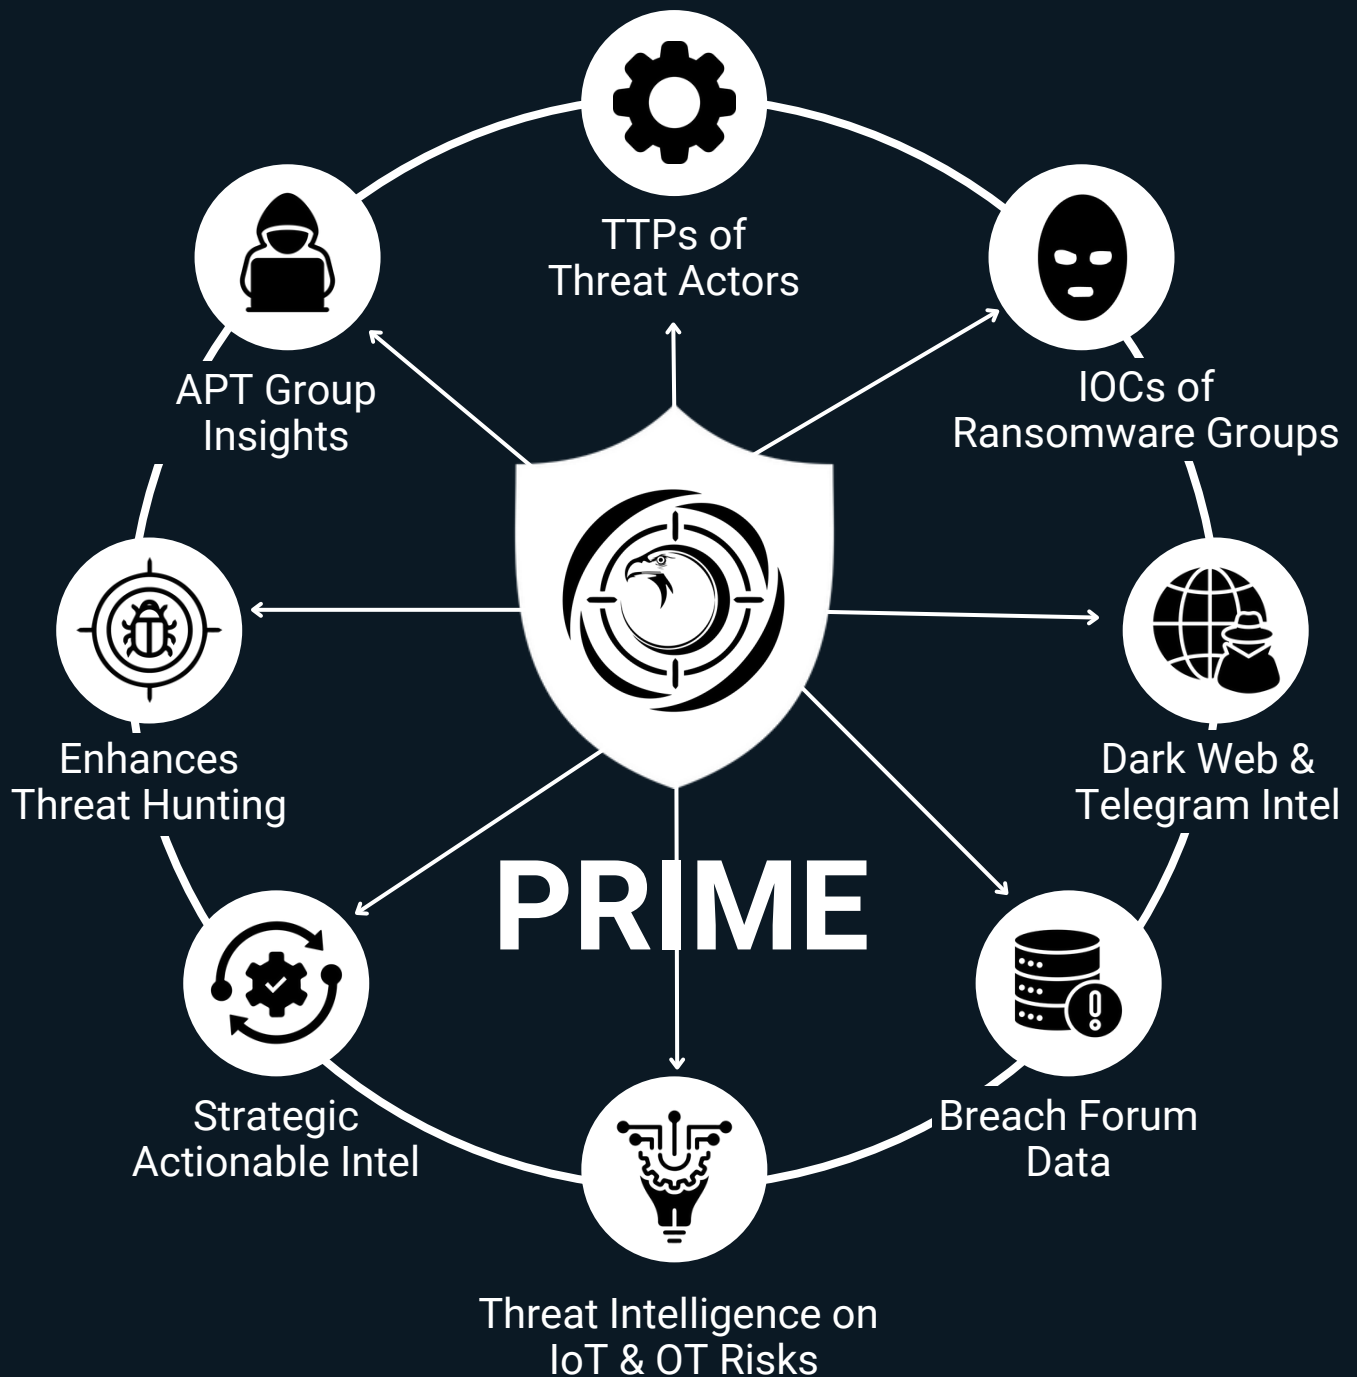

## What Prime Offers

### Risk Intelligence as a Service

Continuous AI-driven monitoring of emerging Cyber Threats.
